

## Fixed Incentive Program for Commercial Customers

# Optimize your energy use with condensing MUAs

Limited-time offer:  
Apply by Sept. 30, 2025

Make-up air (MUA) units are critical for maintaining indoor air quality by replacing the air lost through exhaust fans with fresh outdoor air. For buildings with higher ventilation needs, upgrading to condensing MUA units can enhance air quality and comfort while delivering significant energy savings.\*

For a limited time, take advantage of higher incentives for energy efficiency upgrades—it's the perfect opportunity to improve both your building's air quality and energy performance while maximizing savings.

## Get incentives up to \$21,000<sup>†</sup> per unit

Don't wait! Limited-time incentives are available only for projects with purchase orders submitted by **Sept. 30, 2025** and installations completed by **Oct. 31, 2025**.

Contact your Energy Solutions Advisor for more information on how to qualify your project.

### Limited-time offer

Constant speed	Two-speed or VFD
<b>\$0.75/CFM</b>	<b>\$1.50/CFM</b>

Minimum \$1,125 to maximum \$21,000 per unit.  
Up to 75% cost coverage.

### Standard incentives

Constant speed	Two-speed or VFD
<b>\$0.50/CFM</b>	<b>\$1.00/CFM</b>

Minimum \$750 to maximum \$14,000 per unit.  
Up to 50% cost coverage.

Applies to air flows from 1,500 CFM to 14,000 CFM.

# Our experts can help you save

## How to apply

Contact your Enbridge Gas Energy Solutions Advisor (ESA) today to qualify for incentives on condensing MUA units. We provide complete support from start to finish and help identify other potential savings opportunities for your building.

- 1 Scoping/quote stage**  
Contact your ESA before purchasing equipment. They will recommend the right equipment, pre-qualify your project and provide an incentive quote for project payback calculations and decision-making.
- 2 Purchase order stage**  
Provide a copy of the purchase order by **Sept. 30, 2025** to qualify for limited-time incentives. Your ESA will help you submit all required documents to qualify your project.
- 3 Equipment installation**  
Ensure your equipment is installed and final project details are provided to your ESA by **Oct. 31, 2025**. Include the final invoice for the project.
- 4 Incentive payment**  
Once all final paperwork, including the signed incentive application form is received, your ESA will submit the project and you'll receive your incentive cheque within 4 – 6 weeks.

## Why work with an Energy Solutions Advisor?

-  Complimentary expert advice.
-  Help to identify energy-saving projects.
-  Calculate estimated savings.
-  Connections to service agents to perform the work.
-  Apply for incentives.

## Act now to take advantage of the limited-time offer!

Before starting any work, contact an ESA for your incentive quote.
